

INNER ARCHITECTURE

POWERFUL STORYTELLING: TEAM COURSE

Somewhere between your team's expertise and the rooms they're standing in, the full impact of their message is getting lost in translation. They have the ideas and years of experience to back it up. What they don't have yet is a reliable, consistent structure for getting that expertise out of their heads and delivered with the weight and impact it deserves.

Storytelling acts as a bridge that creates direction and influence. Used properly, it doesn't overpower conversations and presentations. Instead, it structures the data and insights to significantly increase engagement and buy-in from any audience.

This 6-week course teaches the frameworks and delivery skills needed to create high-impact communication in the workplace. It provides the blueprint: how to frame an idea with intention, build a narrative that carries weight, and deliver it with a structure that holds under pressure.

- › 6 modules of 90-minute group training calls
- › Review cheat-sheets for each module for quick reference
- › A private community channel with ongoing support throughout the course
- › Personalised video feedback for individual participants

BEFORE THE COURSE

Stuck. Scattered. Forgettable.

Great ideas get lost in the delivery.
The room nods politely, then forgets.
Their strongest points never land right.

AFTER THE COURSE

Clear. Commanding. Unforgettable.

Idea have a structure built to carry them.
The room leans in and remembers.
Their voice finally matches their expertise.

Schedule Blueprint:

- Week 1 - Building a Storyteller Mindset
- Week 2 - Storytelling Frameworks
- Week 3 - Voice Command
- Week 4 - Body Mastery
- Week 5 - Preparation Strategies
- Week 6 - Execution + Delivery: Live Presenting with Reviews

Live calls recorded for participant reference.

Costs for the course: CHF 7'500 with a maximum of 12 participants

*Individual one-to-one coaching available from CHF 350/hour
