POWERFUL STORYTELLING: INDIVIDUAL COURSE

The full impact of your stories are getting lost in translation. You have the ideas and the experiences. What you don't have yet is a reliable, consistent structure for getting that information out of your head and delivered in a way that builds interest, trust, and connection..

Storytelling acts as a bridge to create direction and influence. Used properly, it doesn't overpower your conversations and presentations. Instead, it structures your thoughts to significantly increase engagement, whether you're presenting to a client, leading a team, or simply telling a story to friends at the dinner table.

This 6-week course teaches the frameworks and delivery skills needed to create high-impact communication in any setting. It provides you with the blueprint to frame your ideas clearly, build a narrative that carries weight, and deliver with a structure that feels natural and easy.

- 6 modules of 90-minute group training calls
- Review cheat-sheets for each module for quick reference
- A private community channel with ongoing support throughout the course
- Personalised video feedback for individual participants
